

Key Assumptions About Managed of Care in Dane County

1. There is no perfect option for creating an MCO structure in Dane County.
2. The state will play a strong regulatory role in whatever model is chosen in Dane county.
3. Dane County (staff, policy makers, & service providers) will be key players in whatever structural model is chosen for implementation in Dane County.
4. There are different levels of financial risks in each of the three models under consideration.
5. There are different levels of county authority in each of the three models under consideration.
6. Given the complexity of the managed care operations, it is difficult to say what the final structure will look like, no matter what model Dane County ends up choosing.
